

## Mother of Pearl (Mosaic)

The timeless beauty of Mother Of Pearl has made this material a favourite choice for our designers. Mother of Pearl is an organic - inorganic composite material produced by some molluscs as an inner shell layer - it is also what makes up the outer coating of pearls. It is strong, resilient, and iridescent. We recommend sealing and proper care & maintenance to help preserve its look. Harsh abrasives or acid based products should NOT be used as these will damage the mosaic surface.

### Pre-Sealing

Purpose: To protect porous surface from staining and ease grout clean up during installation.

Pre-Sealing Options	Product Options	# Coats	Coverage Per 1 litre Per Coat	Important Notes
Surface Pre-Sealing	<b>Aqua-Seal Gold™</b>	1	30 - 40 m <sup>2</sup>	Best recommendation. When only a pre-seal of the surface is required. Will help with grout clean up process during installation
Surface Pre-Sealing	<b>Spray'N'Seal™</b>	1	10 - 15 m <sup>2</sup> (per 450 ml)	Quick spray application. When only a pre-seal of the surface is required. Will help with grout clean up process during installation
Surface Pre-Sealing where a dark or contrasting grout is to be used	<b>Grout Release™</b>	1	30 - 40 m <sup>2</sup>	To be used when a dark or contrasting grout is to be used. Apply <b>AFTER</b> Aqua-Seal Gold or Spray'N'Seal has cured.

Note: Use **HazeAway™** as per label instructions to further help grout clean-up process and minimise grout haze.

### Sealing

Purpose: To help protect porous grout from staining and ease ongoing maintenance.

Desired Look	Stain Resistance	Product Options	# Coats	Coverage Per 1 litre Per Coat	Important Notes
Natural Look	Best	<b>Aqua-Seal Gold™</b>	2	30 - 40 m <sup>2</sup>	Best recommendation for maximum stain resistance and food areas. Will also seal surrounding porous grout, tile & stone.
Enhanced Look	Best	<b>Spray'N'Seal™</b>	2	10 - 15 m <sup>2</sup> (per 450 ml)	Quick spray application. For maximum stain resistance & food areas. Will also seal surrounding porous grout, tile & stone.

Note: Sealers are not waterproofing agents and do not protect against etching by acid based contaminants or harsh chemicals.

### Maintenance

Purpose: To safely maintain a clean grout surface and to preserve it's beauty and integrity

Type of Maintenance	Product Options	Important Notes
Routine Cleaning	<b>EzyClean™</b>	Highly-concentrated. Neutral pH. Safe for everyday / regular use.
Routine Cleaning & to help prolong existing sealer	<b>Boost™</b>	One step clean and re-seal formula. Boosts sealer performance & longevity.
Heavy Duty Cleaning	<b>XtremeClean™</b>	Heavy duty cleaner & degreaser. Contains no acid. Safe on stone, tile & grout. Will remove wax-type finishes. Use on heavily soiled and neglected areas.
Heavy Duty Cleaning - Large Commercial Areas	<b>Deep Clean Pro™</b>	Two part heavy duty cleaner & degreaser. Contains no acid. Safe on stone, tile & grout. Will remove wax-type finishes. Use on heavily soiled and neglected areas.
Routine Cleaning & to help prolong existing sealer	<b>AquaGuard™</b>	Spray & Wipe cleaner and re-sealer. Helps longevity & performance of existing sealer
Routine Cleaning & to help prolong existing sealer	<b>Re-Fresh™</b>	Spray & Wipe cleaner. Deodoriser & sanitiser. Inhibits mould & mildew growth.

Note: Do not use abrasive or acid based products

These recommendations are intended as general guidelines for sealing and maintenance. Read product directions thoroughly prior to use. Always test first.
