

Natural Stone Tables

The timeless beauty of natural stone has made this material a favourite choice for a vast range of tables. Natural stone tables are made from a variety of natural stones. The most common stones used are marble, limestone or travertine and in a variety of finishes from polished (shiny) to honed (satin or matt). As natural stone is porous, it will require sealing and proper care & maintenance to help preserve its look. These tables are sealed in the factory at time of manufacture using the best range of sealers available from Aqua-Seal STS™. To help maintain the beautiful finish of these tables, coasters should be used to help prevent stains, scratches & etch marks. All spills should be wiped up immediately to help avoid staining or etching of the stone surface. Abrasive or acid based products should NOT be used as these will damage the stone surface.

Sealing

Purpose: To help protect porous surface from staining and ease ongoing maintenance.

Desired Look	Stain Resistance	Product Name	# Coats	Coverage Per 250ml Per Coat*	Important Notes
Natural Look	Best	Aqua-Seal Gold	2	3 - 5 m2	Best recommendation for a natural look & maximum stain resistance. Ideal for residential, commercial, high traffic and also for food areas. Will also seal surrounding porous grout.
Natural Look (Small Areas)	Best	Spray'N'Seal	2	3 - 5 m2 (Per 450ml can)	Best recommendation for small areas. For a natural look & maximum stain resistance. Ideal for residential, commercial, high traffic & also for food areas. Will also seal porous grout.
Colour Enhanced Look	Best	Enhance'N'Seal	2	3 - 5 m2	Best recommendation for a colour enhanced/darkened look & maximum stain resistance is required. Ideal for residential, commercial, high traffic & also for food areas. Will also seal & enhance porous grout. Enhancement cannot be reversed.

Note: Sealers are not waterproofing agents and do not protect against etching by acid based contaminants or harsh chemicals.

Maintenance

Purpose: To safely clean & maintain the surface and to preserve it's beauty & integrity.

Type of Maintenance	Product Name	Important Notes
Regular Cleaning	EzyClean	Highly-concentrated. Neutral pH. Safe for everyday/regular use. Will not affect sealers, stone, tile or grout. Rinse free, streak free formula. Fresh lemon scent.
Heavy Duty Cleaning	XtremeClean	Heavy duty cleaner & degreaser. Safe on natural stone, encaustics, tiles & grout. Use on heavily soiled and neglected areas. Ideal as a periodic heavy duty cleaner.
Cleaning & Re-Sealing - Tops	AquaGuard	Spray and wipe, one step cleaner & re-sealer. Use on sealed surfaces to prolong the performance of existing sealer. Cleans off dirt, grease & grime. Safe for food areas.
Cleaning & Deodorising - Tops	Clean'N'Gleam	Spray and wipe cleaner and deodoriser. Use on natural stone and engineered stone surfaces. Safe for food areas. Cleans off dirt, grease and grime.

Note: Do not use abrasive or acid based products.

Stain Removal

When **Poultice Plus** does not effectively remove a stain, the following recommended products used in conjunction with **Poultice Powder** have been shown to produce successful results.

Stain	Recommended Product	Alternative Product	Notes
Coffee, Tea, Wine	Poultice Plus or Strip-It	XtremeClean	Remove etch mark with Hone 400 , ReShine or 5X Pro depending on finish of the table
Cooking Oil, Grease	Poultice Plus or XtremeClean	Strip-It	Remove etch mark with Hone 400 , ReShine or 5X Pro depending on finish of the table

Note: For a comprehensive list of stains and recommended stain removal products, please visit and download from <https://aqua-seal.com.au/stain-removal-guide/>

Etch Removal

To remove etch marks and restore the polished or honed finish to the stone. Etch marks are caused by acid based contaminants eg wine, coffee, tea, salad dressings, citrus, vinegar, soft drinks etc

Table Finish	Recommended Product	Alternative Product	Notes
Polished Finish	ReShine	5X Pro	Remove etch mark with ReShine or 5X Pro and restore a polished finish to the table
Honed (Flat) Finish	Hone 400	N/A	Remove etch mark with Hone 400 and restore a matt/flat finish to the table

These recommendations are intended as general guidelines for sealing and maintenance. Read product label, technical bulletin & SDS thoroughly prior to use. Always test first. Keep floors dry to prevent slip falls.
* All Coverages are approximate and only as a guide. Coverage will vary depending on surface density, porosity, texture and absorption. Also weather conditions, the application method and number of coats.
