

Clean'N'Gleam™

Clean & Shine Benchtop Cleaner

How it works: The Aqua Seal STS™ Product Trouble Shooting Guide covers the most common application issues and problems associated with each Aqua Seal STS™ product.

Problem: If the product problem you are experiencing is not covered by the Product Trouble Shooting Guide then it is most likely job specific. Please contact Aqua Seal STS™ direct for more detailed advice and information.

Solutions: The solutions described are not necessarily the only way to solve the specific problem. They are based on giving you the most efficient & direct solution without resorting to more complex solutions that may require a professional trades person. If the solutions outlined do not solve the problem it is most likely job specific. Please contact Aqua Seal STS™ direct for more detailed advice and information.

Note: Always read entire product label, SDS & product technical bulletin before using. Do a test area first.

Problem	Reason	Solution
Surface is sticky, shows marks (eg hand prints) and/or a residue or streaks marks are visible.	<ul style="list-style-type: none"> The product has not been completely polished dry or used too heavily. Applied to a porous or textured surface. 	<ul style="list-style-type: none"> For over application or incomplete polishing, re-polish dry with a soft cotton cloth or paper towel. For heavy residue or if applied to an incorrect surface, clean using a white pad with either MicroScrub™ or XtremeClean™.
Does not clean or remove deep set stains	<ul style="list-style-type: none"> Not the appropriate cleaner for the intended contaminant. Not a stain remover. 	<ul style="list-style-type: none"> Look at Aqua-Seal STS™ product literature to research correct cleaner or stain remover eg Poulitce Plus™ or Poulitce Powder™.
Does not make dull or honed surface glossy (calcium based surfaces eg marble, limestone, travertine).	<ul style="list-style-type: none"> Clean'N'Gleam™ is not designed to make an unpolished or dull surface glossy. It is only used to enhance and clean an already polished surface. 	<ul style="list-style-type: none"> Look at Aqua-Seal STS™ product literature to research re-polishing product. Use Re-Shine™, Polish Pro™ or 5X Pro™ to restore polish to calcium based stone (eg marble, limestone, travertine etc)
