

# Poultice Plus™

## Stain Removing Paste

**How it works:** The Aqua Seal STS™ Product Trouble Shooting Guide covers the most common application issues and problems associated with each Aqua Seal STS™ product.

**Problem:** If the product problem you are experiencing is not covered by the Product Trouble Shooting Guide then it is most likely job specific. Please contact Aqua Seal STS™ direct for more detailed advice and information.

**Solutions:** The solutions described are not necessarily the only way to solve the specific problem. They are based on giving you the most efficient & direct solution without resorting to more complex solutions that may require a professional trades person. If the solutions outlined do not solve the problem it is most likely job specific. Please contact Aqua Seal STS™ direct for more detailed advice and information.

**Note:** Always read entire product label, SDS & product technical bulletin before using. Do a test area first.

Problem	Reason	Solution
Has not removed all of the stain.	<ul style="list-style-type: none"> <li>• Surface is sealed.</li> <li>• Stain is too deep.</li> <li>• Poultice Plus™ not applied for long enough.</li> </ul>	<ul style="list-style-type: none"> <li>• Remove existing sealer with Strip-It™ before application of Poultice Plus™.</li> <li>• Stain too deep and perhaps permanent.</li> <li>• Apply Poultice Plus™ for 24 hours. Stain may require more than one treatment.</li> <li>• Create a custom made Poultice with Poultice Powder™. Check Aqua-Seal STS™ literature to ascertain the correct product to mix with Poultice Powder™.</li> </ul>
Lightens tone of surface.	<ul style="list-style-type: none"> <li>• Poultice Plus™ has removed general dirt as well as the contaminant thus lightening the tone of the treated area.</li> <li>• Poultice Plus™ residue not completely removed from surface.</li> </ul>	<ul style="list-style-type: none"> <li>• Always apply Poultice Plus™ to complete piece of stone or tile and not just the stain itself.</li> <li>• Clean any residue with water. If it has cured and gone hard, clean with water and Aqua-Seal STS™ MicroScrub™.</li> </ul>
Visible residue on surface or in grout.	<ul style="list-style-type: none"> <li>• Residue not completely removed from surface.</li> <li>• Porous grout may have absorbed Poultice Plus™.</li> </ul>	<ul style="list-style-type: none"> <li>• Clean any residue with water. If it has cured and gone hard, try cleaning with water and Aqua-Seal STS™ MicroScrub™.</li> <li>• Re-colour stained grout with Aqua-Seal STS™ Renue'N'Seal™ - Premium Grout Colourant.</li> </ul>
